FROZEN SECTION SOLUTIONS

COMPLETE WORKFLOW for intraoperative consultation

The clinical use claims described for the products in the information supplied have not been cleared or approved by the U.S. FDA or are not available in the United States.

During surgery, every minute counts. You need a complete, integrated workflow to enable frozen section review in the shortest possible time – even when the pathologist is not on-site. Leica Biosystems provides a total, end-to-end solution for intraoperative consultation. From grossing, to cryosectioning and staining, to remote live view, we provide instruments and consumables that work together seamlessly. We help you get results fast, so patients don't have to wait. ●●●●●●●●●●

Our broad range of consumables includes blades, stains, slides, and a variety of reagents. They are designed to work ideally with Leica Biosystems instruments, giving you optimal results. ●●●●●●●●●●

Fast, efficient freezing and vibration-free cutting for clean, easy-to-read sections. The Leica CM1950 cryostat is designed with the user in mind, and fully customizable to your unique needs. ●●●●●●●●●●

FAST, SAFE, EFFICIENT SOLUTIONS FOR YOUR URGENT FROZEN SECTION WORKFLOW

The clinical use claims described for the products in the information supplied have not been cleared or approved by the U.S. FDA or are not available in the United States.

Get all the power of a large linear stainer in a small package, with the Leica ST4020. Its compact design and rapid turnaround makes it ideal for urgent applications like frozen section.

Remote live viewing of slides in under 15 seconds. The Aperio LV1 IVD live view platform enables pathologists to diagnose frozen sections on-screen, fast, without needing to be at the surgical site.

We know you want the best for your patients, and we will work with you to achieve your goals. Our solutions support your workflow, from beginning to end, along with installation, training and service all delivered by our expert team. Leica Biosystems is a partner you can trust in the laboratory and beyond.
